Property Summary

The property at 2708 Holmes is a stately 5 unit, low-rise apartment complex ideally located several blocks south of Crown Center in the Midtown area of Kansas City, Missouri. The property stands 3-stories with a brick exterior, balconies, a picnic/courtyard area and 8 off-street parking spaces located at the rear of the building. The complex is comprised of 4 1-Bedroom/1-Bathroom units and 1 2-Bedroom/2-Bathroom unit (3rd Floor unit). The 1-Bedroom units have an average unit size of 650 square feet, while the 2-Bedroom unit has an approximate unit size of 1,300 square feet. The 3rd floor unit was converted into a singular unit (previously two separate 1bedroom units), and has been extensively renovated with granite countertops, new cabinets and updates to fixtures and appliances. All units at 2708 Holmes feature hardwood, vinyl and ceramic tile flooring, galley kitchens with oak stained cabinets, decorative fireplaces, great window lighting, dishwashers, ranges, balconies, stackable washers/dryers, central air and accessible Google Fiber. Improvements to units have consisted of updates to lighting and fixtures, several newer ranges in kitchens, refinished hardwood floors, and 2 new water heaters. The roof of the complex is a flat TPO roof (1/3 of the roof has been replaced as of 2016). Windows within the rental units have been recently replaced, and the double windows in the front stairwell are original. The complex is separately metered for gas and electric, and each unit possesses individual hot water heaters. 4 of the 5 HVAC units can be found on the north side of the building at ground level, with the 5th unit located on the roof (the 3rd Floor unit has a combined furnace/HVAC rooftop unit). All other furnaces, excluding the 3rd Floor, are located in the basement which is accessed through a private walkout door at the rear of the building. Residents possess front and rear secured entry (rear access off of an open stairwell) and are responsible for paying electricity and gas. In January, Children's Mercy announced they would begin construction and recruitment for a cutting edge, new research facility. The 375,000-square-foot structure will stand nine-stories encased in glass costing an estimated \$200 million. The facility will be built on the current Adele campus, at 24th and Gillham, in Hospital Hill, five blocks from the complex. Completion of the tower is expected in 2020, providing 3,000 jobs for scientists, assistants and lab technicians.
